ANALYSIS OF BOOKS

PUBLISHED DURING 1919 IN THE UNITED KINGDOM.

THE PUBLISHERS' CIRCULAR AND BOOK-SELLERS' RECORD records a total of 8,622 books as having been published in the United Kingdom during the year 1919. This is an *increase* of 906 compared with the total for 1918. Although the figure is still considerably below the pre-War level, it is a big move upwards and is a satisfactory indication of revival in production. It has to be remembered that although the past year has been one of international peace, it has not been one of complete industrial peace; and the continued high price of materials and of labour has the effect of curtailing automatically the production of minor books. If prices of the year are analysed, we believe it will be found that there has been a larger proportion of the more expensive books published during the past year than has been the case since 1914.

From the Table it will be seen that the classes of literature chiefly responsible for the year's increase are Sociology, Science, Technology, Fiction, Juvenile, and Biography. Several of the classes show a decrease, notably Poetry and Drama, and History. The decrease in historical books is curious, because now that the makers of history are resting, one would expect the scribes to become active.

Viewing the general totals, it will be noted that "new books" have increased by 577, and "new editions" by 329.

The classified totals furnish a rough indication of the attention bestowed by the public upon the various classes of literature, and it is interesting to compare the order in which these appear this year and in 1914:—

1914.	1919.
(1) Fiction	(1) Fiction
(2) Religion	(2) Sociology
(3) Science	(3) Religion
(4) Sociology	(4) Technology
(5) Technology	(5) Juvenile
(6) Poetry	(6) Poetry & Drama
(7) Juvenile	(7) Science
(8) Description	(8) History
(9) Literature	(9) Medicine
(10) { History	(10) Biography
{ Medicine	(11) Literature
(11) Biography	(12) Law
(12) Military & Naval	

The following totals for the last ten years are also of considerable interest:—

Year.	New books.	New editions.	Total
1910 ..	8,468 ..	2,336 ..	10,804
1911 ..	8,530 ..	2,384 ..	10,914
1912 ..	9,197 ..	2,870 ..	12,067
1913 ..	9,541 ..	2,838 ..	12,379
1914 ..	8,863 ..	2,674 ..	11,537
1915 ..	8,499 ..	2,166 ..	10,665
1916 ..	7,537 ..	1,612 ..	9,149
1917 ..	6,606 ..	1,525 ..	8,131
1918 ..	6,750 ..	966 ..	7,716
1919 ..	7,327 ..	1,295 ..	8,622

The monthly table shows that publishing has been marked by a crescendo throughout the year, culminating in great activity during the final three months. The old "Spring season" is not nearly so marked as it was a few years back, while the Autumn and Winter season is more prominent. The figures for the last few months may also contain a promise for next year, but it is impossible to tell with certainty.

Further detailed information regarding the year's publishing is supplied by the appended analytical tables. It should be noted that "Education" includes only books about educational theory and practice, and not text-books on special subjects which are classed under their subjects; and that all publications of 48 pages or less are counted as "pamphlets." It would be possible to swell the totals to an enormous extent by counting all kinds of printed matter (such as ephemeral pamphlets and leaflets, local government publications, musical texts, &c.), but the purpose of this table is to represent the book publishing activity of the United Kingdom. This should be noted in comparing the figures with those of other countries, in some of which single copies of newspapers are counted separately. In these tables each complete publication is counted as one, whether it is in one or more volumes. Serials that appear later as a collected volume are counted as an ordinary book on the appearance of that volume; so that, for example, the series of "Statutory Rules and Orders" issued by the Government, and amounting to hundreds in the year, are counted as one item on the appearance of the annual collected volume.

PREFATORY NOTE

THIS eighty-third yearly issue of THE ENGLISH CATALOGUE OF BOOKS comprises the titles (under authors, and subjects or titles) of works published during 1919, and also of some received too late for inclusion in the eighty-second issue.

The main entry for each book begins with the author's surname (if known) in **heavy type**. As an index to these "Author" records, entries are also made under the titles, commencing with their most important words (which usually indicate the *subjects* with which the books deal), or with the first words; the name or word under which the main entry appears is printed in *italics* in these index entries, thus giving a reference to the place where the full information about a book may be found. Main entries and index entries are in one alphabet.

Writers with compound names are entered under the first part of the name, *e.g.* :—

Baring-Gould (Sabine)

and accordingly must be looked for in that order. References are also made, however, from the last part of the name.

The publications of learned Societies are recorded in an Appendix.

The names and addresses of the Publishers of Great Britain and Ireland, followed by those of the principal publishers in the United States and Canada, will be found at the end of the volume. The telegraphic and cable addresses and telephone numbers have been added when known.

Following the Preface is an analysis of the books of the year 1919, showing in detail the number of works in each class of literature, and giving the proportions of new books, translations, pamphlets, and new editions.

Every effort has been made to obtain the full particulars of the books noted. Special enquiries were made in every case where information was deficient; and most publishers courteously responded. In the cases where entries have been included without prices, the fault lies with the publishers concerned.

Hearty thanks are due to the many publishers, secretaries, librarians, authors and bibliographers who have assisted in making this book more correct and comprehensive than it would have been otherwise.

The Editor will be glad to have particulars (author, title, size, price, publisher, and month of publication) of any work which may have been omitted. Information regarding each book should be given on a separate slip of paper or postcard. It should be addressed to *The Editor of THE ENGLISH CATALOGUE OF BOOKS*, "Publishers' Circular" Office, 19, Adam Street, Strand, London, W.C. 2.

DIRECTORY OF PUBLISHERS

Publishers are invited to send us their Telegraphic Addresses and Telephone Numbers.

Those sent will be found below between square brackets [], and separated from each other by a semicolon (;) The Editor will be glad to be notified of any inaccuracy in the following lists for correction in subsequent volumes

This list of Publishers, with their Addresses, has been compiled principally with a view to supplying information regarding the books in the English Catalogue. This will explain the inclusion of some firms in the list who can scarcely, in the strict acceptance of the term, be called Publishers, since the publication of books forms only an occasional part of their business.

JOHN LONG LTD PUBLISHERS LONDON

The Novels of Nat Gould

SALES NOW EXCEED 20 MILLION COPIES

Nation, 9th August, 1919:—"In the way of sale, his wares surpassed all others. To millions they were the breath of mental life. We have heard that a newspaper purchasing the serial rights of one of his stories could promise itself an increased circulation of 100,000 a day, no matter what its politics or its principles."

The Times, 26th July, 1919:—"If art in any sphere in life finds a basis in the pleasing of a multitude, then Nat Gould was an artist with few above his shoulders."

Morning Post, 26th July, 1919:—"He was the most widely read of all modern story-tellers, and a genius in his downright way."
